Subject: Application for the SQA Engineer Intern.

Dear Sir

I am writing to express my strong interest in the Quality Assurance position at CrusherslabQA. With a solid educational background from American International University-Bangladesh (AIUB) and a passion for ensuring product excellence, I am excited about the opportunity to contribute my skills and dedication to your team. I have heard your company in a Facebook group and I saw the internship opportunity.

I am confident that my skills and enthusiasm make me a strong candidate for this role. I have clear idea about testing techniques, concepts, tools (Selenium, JUnit). I am eager to bring my dedication and drive to your Quality Assurance team to help ensure the delivery of top-notch products that meet and exceed customer expectations. I look forward to the opportunity to discuss how my background and skills align with your needs.

During my time at AIUB, I actively participated in various projects that required rigorous testing and evaluation. These experiences not only honed my technical abilities but also fostered my ability to work collaboratively within multidisciplinary teams. I have a track record of identifying and documenting defects, proposing effective solutions, and communicating findings clearly and concisely.

Thank you for considering my application. I have attached my resume for your review. Please feel free to contact me at 01761402081 or evanahmedfahad@gmail.com. I am excited about the possibility of contributing to CrusherslabQA's success and eagerly await the chance to speak with you further.

Thank You
Best Regards,
Md Fahad Khan

MD FAHAD KHAN

SOFTWARE ENGINEER

ABOUT

Hey there this is Md Fahad Khan. I have strong passion for web development and spent significant time honing my skills for becoming full-stack developer. I have clear idea about testing techniques, concepts, tools (Selenium, JUnit). I also have hands-on knowledge about Photoshop, Illustrator, MS word and PowerPoint. However, I'm eager to gain real-world experience and work on actual projects. I'm quick learner, hardworking and have a strong desire to contribute to success of any team I work with.
